Art Unit: 1763

1. This finality of the last office action is withdrawn in view of the new grounds of rejection.
2. Applicant's arguments filed 11-15-06' have been fully considered but they are not persuasive.

Applicant argues the following points regarding the examiner's previous rejection of their claimed subject matter.

-The rejection of applicant's claims over Radens et. al. in the previous office action has been rendered moot by applicant's cancellation of all of those claims which were previously rejected over Radens et. al.

The examiner must disagree.

-The examiner has mistakenly neglected to reject some of applicant's claims over Radens et. al. Although applicant's cancellation of the claims which were previously rejected over Radens et. al. has overcome the rejection of those claims, the examiner must now reject some of the previously allowed claims over Radens et. al.

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

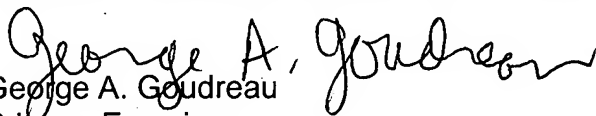

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 41-43, 45, 47, and 61-62 are rejected under 35 U.S.C. 102(b) as being anticipated by Radens et. al. (6,251,710) as applied in paragraph 3 of the previous office action.

Art Unit: 1763

5. Claims 23-39, 48-60, and 63-65 are allowed.
6. Claim 46 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
7. Any inquiry concerning this communication should be directed to examiner

George A. Goudreau at telephone number (571)-272-1443.
